

Springtime Song

(Sung to the tune of B-I-N-G-O)

There is a time when Earth gets warm,
and wakes up trees and flowers.

It is coming soon!

It is coming soon!

It is coming soon,
and springtime is its name.

There is a time when flowers bloom,
and grass turns green all over.

It is coming soon!

It is coming soon!

It is coming soon,
and springtime is its name.

There is a time when birdies sing,
and build a nest for laying.

It is coming soon!

It is coming soon!

It is coming soon,
and springtime is its name.

There is a time when raindrops splash,
and make big shiny puddles.

It is coming soon!

It is coming soon!

It is coming soon,
and springtime is its name.

There is a time when insects zoom,
and drink from pretty blossoms.

It is coming soon!

It is coming soon!

It is coming soon,
and springtime is its name.
