2022 Head Start & Early Head Start Profile

“Head Start has allowed my son to grow and become independent. He is so excited about learning and looks forward to going to school. Head Start has taught him to take responsibility for his actions. When outside of the classroom, he often applies what he has learned. Head Start has given him the necessary skills to enter kindergarten and have a ‘head start’ in life.”

– Jessica Hart, Potts Camp

Head Start's Model

Nationwide, Comprehensive, Multi-Generational

In the six decades since our founding, we have reached a new milestone: 37 million children have been served by Head Start. Innovators and small business owners, police officers and members of the service, nurses and teachers—our alumni represent the vast and diverse fabric of our country. From early math and reading skills, to confidence and resilience, Head Start helps children build the skills they need to be successful in school and life.

Head Start takes a comprehensive approach to meeting the needs of young children and their families. **There are four pillars in every program:**

Education: Learning experiences support intellectual, social, and emotional growth

Health Services: Immunizations, dental, medical, and mental health support, nutritional services, and early screenings ensure healthy development

Family Involvement: Opportunities for parents and caregivers to be involved in decision making, participate in classes, and volunteer in the program strengthen families

Wraparound Support: Tailored services meet local and individual needs and link children and families to community supports.

“**Head Start and Early Head Start programs successfully implemented CDC recommended guidance and other ancillary measures for child care programs that remained open, allowing them to continue offering in-person learning.**”

— CDC, *Implementing Mitigation Strategies in Early Care and Education Settings for Prevention of SARS-CoV-2 Transmission*

The National Head Start Association is committed to the belief that every child, regardless of circumstances at birth, has the ability to succeed in life. Since 1974, NHSA has worked for policy changes that ensure all income-eligible children have access to the Head Start model.
