## 2022 Head Start & Early Head Start Profile

“Head Start is committed to the whole family. It not only is committed to the educational progress of the child, but also with involving parents. It opens its doors for families to excel in education as well as in life.”

– Phyteri Wynn

# Head Start's Model

## Nationwide, Comprehensive, Multi-Generational

In the six decades since our founding, we have reached a new milestone: 37 million children have been served by Head Start. Innovators and small business owners, police officers and members of the service, nurses and teachers—our alumni represent the vast and diverse fabric of our country. From early math and reading skills, to confidence and resilience, Head Start helps children build the skills they need to be successful in school and life.

Head Start takes a comprehensive approach to meeting the needs of young children and their families. **There are four pillars in every program:**

**Education:** Learning experiences support intellectual, social, and emotional growth

**Health Services:** Immunizations, dental, medical, and mental health support, nutritional services, and early screenings ensure healthy development

**Family Involvement:** Opportunities for parents and caregivers to be involved in decision making, participate in classes, and volunteer in the program strengthen families

**Wraparound Support:** Tailored services meet local and individual needs and link children and families to community supports.

“**Head Start and Early Head Start programs successfully implemented CDC recommended guidance and other ancillary measures for child care programs that remained open, allowing them to continue offering in-person learning.**”

— CDC, *Implementing Mitigation Strategies in Early Care and Education Settings for Prevention of SARS-CoV-2 Transmission*
