

Five Little Carrots

By Music With Gina

**Five little carrots in the garden
Five little carrots in the garden
Along came a bunny, hop hop hop
And they picked a little carrot
and they ate it all up**

**Four little carrots in the garden
Four little carrots in the garden
Along came a bunny, hop hop hop
And they picked a little carrot
and they ate it all up**

**Three little carrots...
Two little carrots...
One little carrot...**

**No more carrots in the garden
No more carrots in the garden
It's time to plant and buy more seeds
To grow some more carrots
for my bunnies**

To grow some more carrots for my bunnies
