Elephants Scavenger Hunt at the Smithsonian National Zoo

As you sing and play along with the National Zoo elephants, be on the lookout for three exciting and unexpected moments recorded of our animal friends, Maharani and Swarna. (Scientists call this observation)

- Did you see Rani do elephant yoga and balance on two legs?
- Did you watch Rani take a break from exercising to walk over and say hi to her friend Swarna?
- Did you spy the inside of Swarna's nose and see her snot!?

Great job, scientists! What e/se did you observe?
