The Starling Difference

CALM/MINDFUL	EAPS	STARLING	FACE-TO-FACE
Calm and other meditation apps offer sleep stories, guided meditations, soothing sounds and breathing techniques to help you feel more calm and practice mindfulness.	An employee assistance program helps staff with personal, family, and work issues. Staff gain access by phoning into a helpline and a specialist can redirect you to resources.	Starling Minds is a free, self-guided online CBT program for anxiety, depression, and stress, with training sessions, webinars, exercises, tools, videos, and a community.	Talk or traditional therapy provides mental health support through face-to-face or in-person interactions with a licensed therapist. Weekly sessions typically take place in an office setting for 45 minutes to an hour.
