

Do You Know How Pumpkins Grow

(To the tune of Do You Know the Muffin Man)

Do you know how pumpkins grow,
how pumpkins grow, how pumpkins grow?
Do you know how pumpkins grow,
in the pumpkin patch?

First, we plant some pumpkin seeds,
some pumpkin seeds, some pumpkin seeds.
First, we plant some pumpkin seeds,
in the pumpkin patch.

THEN!

From a seed there grows a sprout,
There grows a sprout, there grows a sprout.
From a seeds there grows a sprout,
in the pumpkin patch.

THEN!

Long, green vines and leaves will grow,
the leaves will grow, the leaves will grow,
Long, green vines and leaves will grow,
in the pumpkin patch.

THEN!

Flowers bloom on the vines,
on the vines, on the vines.
Flowers bloom on the vines,
in the pumpkin patch.

THEN!

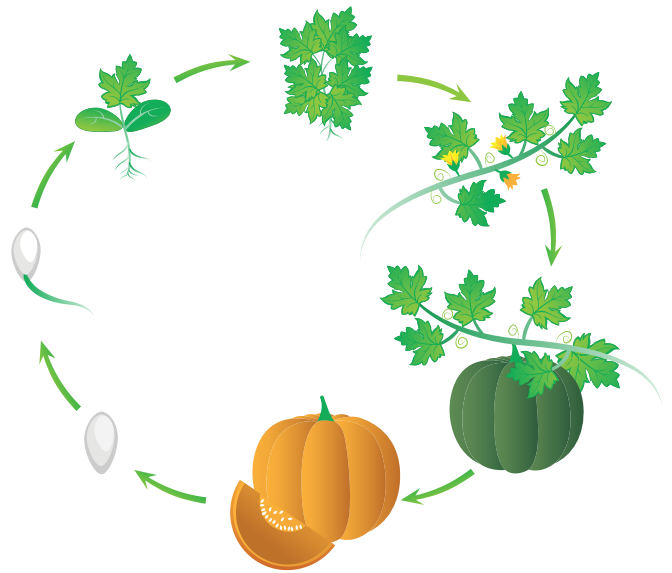

Little green pumpkins start to grow,
start to grow, start to grow.
Little green pumpkins start to grow,
in the pumpkin patch.

THEN!

Big green pumpkins turn to orange,
turn to orange, turn to orange.
Big green pumpkins turn to orange,
in the pumpkin patch.

AND!

Now we know how pumpkins grow,
how pumpkins grow, how pumpkins grow.
Now we know how pumpkins grow,
in the pumpkin patch!
