2024 Head Start & Early Head Start Profile

SNAPSHOT

“I don’t want to think what my life would be like without Head Start. This program has been, and continues to be a blessing for my kids and me because it cares about my child’s education, health and their social and emotional growth as well. I am forever grateful for the mission of the Head Start program.”

HEAD START'S MODEL

Nationwide, Comprehensive, Multi-Generational

In the nearly six decades since its founding, Head Start and Early Head Start has served nearly 40 million children and their families. Innovators and small business owners, police officers and members of the military, nurses and teachers, and even members of Congress—our alumni represent the vast and diverse fabric of our country. From early math and reading skills, to confidence and resilience, Head Start and Early Head Start helps children build the skills they need to be successful in school and life.

Head Start and Early Head Start takes a comprehensive approach to meeting the needs of young children and their families.

There are four pillars in every program.

Education: Learning experiences support intellectual, social, and emotional growth

Health Services: Immunizations, dental, medical, and mental health support, nutritional services, and early screenings ensure healthy development

Family Involvement: Opportunities for parents and caregivers to be involved in decision making, participate in classes, and volunteer in the program strengthen families

Wraparound Support: Tailored services meet local and individual needs and link children and families to community supports.

CHILDREN

53,672 Home Visits Conducted Throughout the Year

161 Pregnant Women Served

7,502 Newly Enrolled Children Completed Behavioral Screenings

1,568 Children Received Care for a Chronic Health Condition

18,380 Children Received Preventative Dental Care

16,499 Children Up-to-Date on Early and Periodic Screening, Diagnostic and Treatment Screenings

Participation in Head Start improves the likelihood of educational success, including a “2.7% increase in high school completion, an 8.5% increase in college enrollment, and a 39% increase in college completion. These estimates imply sizable, long-term returns to investments in means-tested, public preschool programs.”

Prep School for Poor Kids: The Long-Run Impacts of Head Start on Human Capital and Economic Self-Sufficiency (2021)

FAMILIES

1,631 Homeless Families Served

13,064 Families Received Services that Promote Family Outcomes

4,203 Fathers Involved in their Child’s Educational Experiences

“The key takeaway is that **the benefits of Head Start appear to transfer from one generation to the next** in a substantial way... These results imply that cost-benefit analyses of Head Start and similar early childhood interventions underestimate the benefits of such programs by ignoring the transmission of positive effects across generations.”

Breaking the Cycle? Intergenerational Effects of an Antipoverty Program in Early Childhood. (2022)

COMMUNITIES

1,749 Head Start and Early Head Start Classrooms

9,567 Total Head Start and Early Head Start Staff

14,516 Parents Employed, in School, or in Job Training

“Head Start generates a net present value of \$1,204 per child who attends”, far exceeding the costs of the program. Additionally, “25 years after participation, **Head Start reduces the incidence of poor health**. These health impacts have large economic significance, as the U.S. annually spends \$144 billion on health conditions that limit work.”

The physical and mental health returns of Head Start 25 years after participation: evidence from income eligibility cutoffs. (2023)
