

Our mission is to coalesce, inspire, and support the Head Start field as a leader in early childhood development and education.

May 16, 2024

An Open Letter about the Future of Head Start

Dear President Biden,

This week marks the 59th anniversary of the signing of the Head Start Act. This continuing national commitment to opportunity for our country's youngest children, regardless of their circumstances at birth, has been an important positive influence on more than 39 million children—including our own. It gives them a foundation for a lifetime of learning and growth in school and the wider world.

Despite the long and proven track record of success, we are concerned about the future. We, the undersigned Head Start and Early Head Start parents and caregivers, ask our national leaders to hear our voice and continue the commitment by reconsidering the impact of the proposed new Head Start rule, prioritizing:

- making sure any new requirements are fully paid for, and do not result in reducing the number of children and families served;
- keeping our children safe and healthy utilizing proven practices, not arbitrary federal rules; and
- recognizing the unique cultures, traditions, and preferences of our communities and continuing to provide Head Start programs the local autonomy to meet individual community needs.

Head Start has had a deep and lasting impact on our own lives and the lives of our children. It not only changes lives, through high quality education in safe, healthy, and fun spaces where our children can grow, learn, and develop into the amazing people we know they will be, but it also saves lives by helping families escape domestic violence, move out of being unhoused, achieve educational and career goals, and get back on our feet after unplanned life events. Furthermore, Head Start provides us with support for how to be the best parents/caregivers we can be and empowers us to be active participants in our children's education and well-being.

Our Head Start staff (teachers, family service workers, bus drivers, program directors, health service workers, etc.) are real life heroes and they deserve to be compensated adequately and fairly for their work. And while we believe the proposed rule is well intentioned, we respectfully do not agree with the Administration trying to issue pay requirements without providing the additional money needed by our programs to be able to make these critical changes. New salary rules should only be in effect alongside the funds to pay for them. If Head Start is forced to reduce the number of children served in order to cover these extra costs, even fewer families like us will have access to the opportunities provided by Head Start. That is unacceptable.

The new rule also equates better child health and safety with additional reporting requirements. We support strong accountability—our children's well-being is and should always be the number one priority. However, we are concerned that the level of additional regulations will be a distraction from what is really going on in a classroom or center, and that it disregards common sense individual circumstances while unnecessarily elevating certain mistakes. We trust the staff in our children's programs and our parent policy councils who make key decisions. We urge the Administration to empower local leaders while focusing on oversight practices that are proven to work.

Head Start's unwavering philosophy states that where you come from shouldn't stand in the way of where you're going. We know that our children's futures shine brighter thanks to the opportunities they have through Head Start.

On this 59th anniversary of the creation of Head Start, we urge Washington leaders to hear our collective voice and ensure that the new Head Start rule is fully funded, based on proven practices rather than arbitrary federal rules, and maintains the local autonomy on which Head Start was founded, first achieved success, and continues to remain grounded.

Head Start has been our nation's commitment to young children, families, and the future of our great nation for more than half a century. We urge you to do everything in your power to ensure that commitment will remain intact for decades and centuries to come.

Sincerely,

The parents and caregivers in Head Start and Early Head Start

16 de mayo de 2024

Una carta abierta sobre el futuro de Head Start

Estimado Presidente Biden,

Esta semana se cumple el 59º aniversario de la firma de la Ley Head Start. Este compromiso nacional continuo con las oportunidades para los niños más pequeños de nuestro país, independientemente de sus circunstancias al nacer, ha sido una influencia positiva importante en más de 39 millones de niños, incluido el nuestro. Les da una base para toda una vida de aprendizaje y crecimiento en la escuela y en el mundo en general.

A pesar de la larga y probada trayectoria de éxitos, estamos preocupados por el futuro. Nosotros, los padres y cuidadores de Head Start y Early Head Start abajo firmantes, pedimos a nuestros líderes nacionales que escuchen nuestra voz y continúen con el compromiso reconsiderando el impacto de la nueva regla propuesta de Head Start, priorizando:

- Asegurarse de que los nuevos requisitos se paguen en su totalidad y no resulten en una reducción del número de niños y familias atendidos;
- Mantener a nuestros niños seguros y saludables utilizando prácticas comprobadas, no reglas federales arbitrarias; y
- Reconocer las culturas, tradiciones y preferencias únicas de nuestras comunidades y continuar proporcionar a los programas Head Start la autonomía local para satisfacer las necesidades individuales de la comunidad.

Head Start ha tenido un impacto profundo y duradero en nuestras propias vidas y en las vidas de nuestros hijos. No solo cambia vidas, a través de una educación de alta calidad en espacios seguros, saludables y divertidos donde nuestros hijos pueden crecer, aprender y convertirse en las personas increíbles que sabemos que serán, sino que también salva vidas al ayudar a las familias a escapar de la violencia doméstica, salir de la falta de vivienda, alcanzar metas educativas y profesionales, y volver a ponerse de pie después de eventos de vida no planificados. Además, Head Start nos brinda apoyo sobre cómo ser los mejores padres/cuidadores que podamos ser y nos capacita para ser participantes activos en la educación y el bienestar de nuestros hijos.

Nuestro personal de Head Start (maestros, trabajadores de servicios familiares, conductores de autobuses, directores de programas, trabajadores de servicios de salud, etc.) son héroes de la vida real y merecen ser compensados de manera adecuada y justa por su trabajo. Y aunque creemos que la regla propuesta es bien intencionada, respetuosamente no estamos de acuerdo con que la Administración intente emitir requisitos de pago sin proporcionar el dinero adicional que necesitan nuestros programas para poder hacer estos cambios críticos. Las nuevas reglas salariales solo deberían estar vigentes junto con los fondos para pagarlas. Si Head Start se ve obligado a reducir el número de niños atendidos para cubrir estos costos adicionales, aún menos familias como nosotros tendrán acceso a las oportunidades que ofrece Head Start. Eso es inaceptable.

La nueva norma también equipara una mejor salud y seguridad infantil con requisitos adicionales de presentación de informes. Apoyamos una fuerte rendición de cuentas: el bienestar de nuestros niños es y siempre debe ser la prioridad número uno. Sin embargo, nos preocupa que el nivel de regulaciones adicionales sea una distracción de lo que realmente está sucediendo en un aula o centro, y que no tenga en cuenta las circunstancias individuales de sentido común al tiempo que eleva innecesariamente ciertos errores. Confiamos en el personal de nuestros programas infantiles y en nuestros consejos de políticas para padres que toman decisiones clave. Instamos a la Administración a empoderar a los líderes locales mientras se enfoca en las prácticas de supervisión que han demostrado funcionar.

La filosofía inquebrantable de Head Start establece que el lugar de dónde vienes no debe interponerse en el camino hacia dónde vas. Sabemos que el futuro de nuestros hijos brilla más gracias a las oportunidades que tienen a través de Head Start.

En este 59.º aniversario de la creación de Head Start, instamos a los líderes de Washington a que escuchen nuestra voz colectiva y se aseguren de que la nueva regla de Head Start esté totalmente financiada, basada en prácticas comprobadas en lugar de reglas federales arbitrarias, y mantenga la autonomía local sobre la cual se fundó Head Start, primero logró el éxito y continúa estando arraigada.

Head Start y Early Head Start han sido el compromiso de nuestra nación con los niños pequeños, las familias y el futuro de nuestra gran nación durante más de medio siglo. Le instamos a que haga todo lo que esté a su alcance para garantizar que ese compromiso permanezca intacto durante décadas y siglos.

Sinceramente,

Los padres y cuidadores de Head Start y Early Head Start
