

# CDA PATHWAY TO PURPOSE

**In partnership** with Harmony, The Academy at NHTSA is proud to introduce: CDA Pathway To Purpose - a program that allows high school students to access The Academy at NHTSA's CDA coursework at no-cost!

## Why it matters:

By working with Head Start and Early Head Start classrooms, learners will become skilled in human development in an early childhood education setting while earning a credential that helps them graduate work-ready. Moreover, they will find meaning and purpose as they become an integral part of their communities, helping to shape the future.

## Program highlights:

- Scholarships available at no or low cost
- Self-paced content
- No physical classroom needed
- Support with placement at an Head Start and Early Head Start program
- Free books provided to all scholarship students
- No minimum or maximum enrollment requirement
- All school systems - especially those in small and rural areas
- Curriculum may also be used to supplement an existing ECE course, leading to CDA eligibility upon graduation

**Join the movement!**
